VIEWS, CHARM, & CRAFTSMANSHIP! This home has it all. Massive amounts of additional living space. Completely renovated yet restored and repurposed at the same time. With top of the line Cafe appliances, ship lap walls, herringbone shower, french oak flooring, pressed cedar ceiling in the lanai, spot on design throughout the entire home. Custom det corner of the property include an outdoor shower, lush tropical landscaping with a heavy laden papaya tree, dog run, a garden, huge spaces for entertaining on the lower trex decks, tons of storage, tankless hot water, 200 amp electrical, square foot bonus room currently turned into a home gym. Although it is technically a 2 bedroom, the baby's room with is not counted as bedroom per tax records. It has a composition roof instead of a wood shake roof.

The nearby park allows for extra parking and a great place to take your dog to play. Minutes from the highway and close to malls and excellent restaurants. This is a **MUST** see home that you will never ever forget!
